III. ENTRY FEES, DEADLINES AND ONLINE ROSTER (ENTRY FORM)

A. IESA Entry Fees

- All registration information (number of students competing) must be completed and submitted online in the IESA Member Login Center located on the IESA website at www.iesa.org.
- A school must create an invoice and have their payment of \$20 per bowler postmarked by the initial entry deadline. Schools have up until the final entry deadline to create an invoice and have payment postmarked, but doing so after the initial entry deadline may result in additional fees.
 - A team is defined as four bowlers competing from one school and a school registering a team may list up to six students on the online roster.
 - It is understood that only four students will bowl at any given time in the boys' and/or girls' division(s) and the remaining two students are substitutes.
 - If a school does not have four bowlers, the school is permitted to register up to three individuals to compete as individuals and no substitutes are permitted.
 - Entry fees will be refunded only upon request prior to the initial entry deadline.
 - Late entry fees may be waived for schools designated as new members or for current member schools entering this activity for the first time.
- Coops are permitted and schools wishing to form a coop with another school(s) must follow the guidelines as outlined in IESA By-Law 2.140. Likewise, schools choosing to use students from a feeder school must follow the requirements of IESA By-Law 2.033.

B. Sectionals and State Finals Fees for Bowlers

- Each school is responsible for paying each participating student's lane fees at sectionals.
 - If payment is not made to the bowling center upon arrival at the sectionals site, the student(s) will not be permitted to participate in sectional competition.
 - The sectionals lineage fees (cost per game bowled) are determined by the host and shall include the cost of shoes and bowling balls. The host determines the acceptable form(s) of payment - cash, school-issued check, money order or credit card. Debit cards and/or

personal checks are not acceptable forms of payment. In addition, purchase orders and/or season passes to the bowling center are not considered acceptable forms of payment.

- c. A school paying for four bowlers in a division does not need to pay for the substitute(s) listed on the online roster. Substitutes are permitted in the pit area.
2. The IESA will pay the lineage fees for all bowlers who advance to the state finals.

C. Online Roster

1. The online roster shall list the students bowling and coaches representing the school during the state series (sectionals and state finals) and must be completed by the deadline. Only the students and coaches listed on the online roster are permitted in the pit area.
2. The expectation is that students listed on the online roster are available to bowl at sectionals and both days at the state finals should they advance from sectionals. Schools are discouraged from registering students to bowl at sectionals who know in advance their schedule does not permit them to attend one or both days of the state finals as this may take away the opportunity for other students to earn awards/advance.
3. Failure to submit the form by the deadline will cause students from the school to be ineligible to compete in the state series.
4. It is the ultimate responsibility of all schools with entries to ensure that each bowler representing the school is eligible.

D. Roster Changes

1. After the online roster deadline, any change to the lineup must be submitted to the IESA by 12:00 noon on Friday of Week 41 (see Section II Season Calendar of these Terms and Conditions for the specific date).
2. After this deadline, the only accepted changes will include scratches from competition and changes to the starting lineup.
 - a. An example of a starting lineup change is when a listed substitute is moved into the starting lineup - making a lineup change before the first ball is bowled in a game is not considered a substitution for that game.

IV. SECTIONALS AND STATE FINALS FORMAT

- A. Bowlers will be assigned to blocks of lanes and will rotate within the block; lane rotations may change.
- B. Scoring will be the actual pin fall for each bowler and the standard ten-pin scoring format will be used.
- C. None of the lanes within the sectional or state final bowling centers shall be used for practice on days of competition however, a scheduled ten-minute warm-up will be allowed (five minutes on each lane). The penalty for bowling prior to the warm-up time is disqualification.
- D. If there are an odd number of teams competing, the first bowler of a team cannot begin their next frame until the last bowler has completed their first ball of the previous frame and pacer teams are not allowed.
- E. In the event of a lane breakdown, the bowlers shall move to the next open pair of lanes available. In the event of a hard break, pins should be re-set at the time of the break on the new lanes. One practice ball on each new lane will be allowed for each bowler as a warm-up. The round must be finished on the new lanes regardless of the original pair being repaired.
- F. Sectionals
 1. Assignments will be determined so that the number of schools registered as of the final entry deadline is as equal as possible and geographically reasonable at each sectional site.
 2. Format and Advancers
 - a. **Bowlers will bowl four games** and follow USBC bowling rules (with any exceptions noted throughout these IESA Bowling Terms and Conditions).

- b. If a sectional site needs to bowl in two shifts, a minimum of eight lanes will be used in the first shift. The eight lanes are composed of four schools which each have a competing boys and girls team.
 - c. The intent is to advance 24 boys teams, 24 girls teams, 48 individual boys and 48 individual girls (not associated with one of the advancing teams) from sectionals to state finals. The number of advancing teams and individuals from each individual sectional site will be based on the number of schools entering the activity.
 - d. If a site does not have the minimum number of advancing teams registered, the following process will be used to fill the state finals field:
 - i. The IESA shall review all remaining sectionals and determine the number of teams (boys and/or girls) that are needed to fill the state finals field. The IESA will determine which team(s) has the least number of pins behind the last qualifying spot in the sectionals.
 - ii. In the case of a tie, the tiebreaker will be broken by the team with the highest series. If the tie still is not broken, then the team with the best 4th game shall advance to the state finals. Consequently, should a tie still exist the next tiebreakers will be the team with the best 2nd game and then the best 1st game.
 - e. If a team advances from sectionals to state and has a player that is no longer able to participate, another student who has been listed as a substitute on the online roster can be used. If the school did not list a substitute, the team will still compete as a team but will only compete with the students listed on the online roster.
 - f. If an individual bowler from a given sectional has qualified but can no longer participate in the state finals, the next eligible bowler from that sectional may advance. First, the principal or athletic director from the school of the bowler withdrawing from the competition must notify the IESA in writing by 2:00 pm on the Tuesday prior to the state finals; the IESA will notify the new advancing individual.
 - i. After the stated deadline has passed, no open positions will be replaced.
3. The IESA will have until 3:00 pm on Monday after sectionals to make corrections to the advancers in the event a clerical error was made in calculating sectionals results.
