- 4-3 = 3rd place winner from regional #4

IESA WRESTLING SECTIONAL TOURNAMENT BRACKETS & PAIRINGS

CONSOLATION BRACKET FOLLOW THE LEADER FORMAT

Wrestlebacks - for wrestlers defeated by the two finalists

NOTES

1. 1st, 2nd, 3rd, and 4th place finishers advance to the state meet.
2. The only way there would be a bye in the 1st round of the championship bracket would be if fewer than 4 wrestlers advance from one regional, if a wrestler fails to make weight on the day of the sectional, or a wrestler scratches.
3. Pairings will be different for each weight class. As you review the pairings for the championship bracket 1-1 would refer to the first place wrestler from regional #1; 2-1 would refer to the first place wrestler from regional #2; 3-1 would refer to the first place wrestler from regional #3; 4-1 would refer to the first place wrestler from regional #4; 1-2 would refer to the second place wrestler from regional #1; 2-2 would refer to the second place wrestler from regional #2; 3-2 would refer to the second place wrestler from regional #3; 4-2 would refer to the second place wrestler from regional #4 and so on.
4. There will be a bye in the first round of the wrestlebacks if the wrestlers in the first round of the Championship Bracket do not advance to the finals.
