### Recommendation 2- By-laws and Terms and Conditions and Host Instructions

<b>Current</b>	<b>A. ADVANCEMENT PROCEDURE</b> <b>Team Advancement to State</b> There will be eight (8) sectionals in each of the four classes. The first, second, and third-place sectional teams shall advance to state-level competition. For purposes of advancement of teams from sectionals to the state final, if a tie occurs at the <b>last qualifying spot</b> , the teams tied advance to the state final.
<b>Proposed</b>	<b>A. ADVANCEMENT PROCEDURE</b> <b>Team Advancement to State</b> There will be eight (8) sectionals in each of the four classes. The first, second, third, and fourth-place sectional teams shall advance to state-level competition. If a tie occurs at the <b>last qualifying spot</b> , the tie shall be broken by NFHS Rule 8-2-4.
<b>Rationale</b>	Expansion would help overall running engagement across IESA schools - there are several very competitive sectionals - and by including the 4th place team, it would allow those teams who could compete competitively at state with an opportunity.  Increase in the school diversity of the individual qualifiers. By going to 4 qualifying teams, the top 7 individuals would most likely represent additional schools - which then leads to more engagement and participation.  The additional teams would add between 320-640 additional runners.  The state meet time schedule will be adjusted by five minutes to accommodate additional runners and review.  Approx. additional cost- \$8,200
